When incorporating information furnished by [redacted] into communications suitable for dissemination outside the Bureau, Bureau authority is not necessary when the information can be paraphrased so that the identity of the informant is not jeopardized. When certain specific information is of such a nature as to prohibit dissemination, the Bureau should be advised of the basis for non-dissemination. b7D

Certain information furnished by [redacted] will be of such a nature as to necessitate a classification above "Confidential", since the disclosure of this information to unauthorized persons could have a detrimental affect upon international relations and the national defense in all other instances, a classification of "Confidential" will be adequate if the information relates to Soviet nationals and can be adequately paraphrased. b7D

When disseminating information received from [redacted] no reference should be made to the time (date, month, or year) the information was received. This should be set forth administratively. b7D

[redacted] When incorporating information furnished by [redacted] into communications suitable for dissemination outside the Bureau, Bureau authority is not necessary when the information can be paraphrased so that the identity of the informant is not jeopardized. When certain specific information is of such a nature as to prohibit dissemination, the Bureau should be advised of the basis for non-dissemination. b7D

Certain information furnished by [redacted] will be of such a nature as to necessitate a classification above "~~Confidential~~", since the disclosure of this information to unauthorized persons could have a detrimental affect upon international relations and the national defense. In all other instances, a classification of "~~Confidential~~" will be adequate if the information relates to Soviet nationals and can be adequately paraphrased. b7D

When disseminating information received from [redacted] no reference should be made to the time (date, month or year) the information was received. This should be set forth administratively. b7D

Suitable paraphrasing of the information to be disseminated, plus concealment of the time of its receipt will materially assist in concealing the identity of the source.

If the attached memorandum sets forth a Soviet's KGB code name, no further dissemination of that code name should be made. Such information is of no investigative value and its indiscriminate and unwarranted misuse could endanger the informant's sensitive position.

IN VIEW OF THE HIGHLY SENSITIVE POSITION OF [redacted] EXTREME CAUTION MUST BE EXERCISED IN HANDLING ANY INFORMATION ATTRIBUTED TO THIS SOURCE, AND NO ACTION TAKEN WHICH COULD CONCEIVABLY JEOPARDIZE THE SECURITY OF THE INFORMANT OR REVEAL HIS IDENTITY. b7D

IN THE EVENT KGB CODE NAMES APPEAR IN THIS COMMUNICATION, THEY ARE NOT TO BE FURTHER DISSEMINATED. THEY HAVE BEEN SET FORTH FOR INFORMATIONAL PURPOSES ONLY. SUCH INFORMATION IS OF NO INVESTIGATIVE VALUE AND ITS INDISCRIMINATE AND UNWARRANTED USE COULD ENDANGER THE INFORMANT'S SENSITIVE POSITION.
